Title (description) RTM update to reflect changes in ECS-NSI IRD requirements										
Documents	Source Nos (RID, NCR, Action Item, GSFC CCR, etc.) or Tech Reference									
RTM Chan	ge x	Start New Bas	seline 🔲							
Problem In light of the approval of CCR 96-1104 (update of ECS-NSI IRD for consistency with ECS-NSI ICD), by the ECS CCB (updated IRD was also approved by ESDIS CCB on 11/12/96), RTM updates have to be done. Rev B corrected the External Interface Id										
Proposed Solution The following RTM updates will be done to reflect updated ECS-NSI IRD: - Delete NSI-0010i from the IRD Class - Add NSI-0032 to the IRD Class - Add RBRs for NSI-0032 - Add L4s that will link to NSI-0032 RBRs - Create IRD-RBR, RBR-L4,IRD- L3 F&PRS, and RBR-External Interface ID links - Perform editorial changes
